The background features a collage of architectural and industrial elements. At the top right is a perspective view of a city skyline with various buildings and a bridge. To the left of the main title is a large, stylized blue diamond shape with rounded corners and a thin orange border. Inside the diamond, the text '01' is positioned above the word 'About us' in a large, white, sans-serif font. The bottom of the slide shows a stylized green landscape with a yellow construction crane on the left side.

01

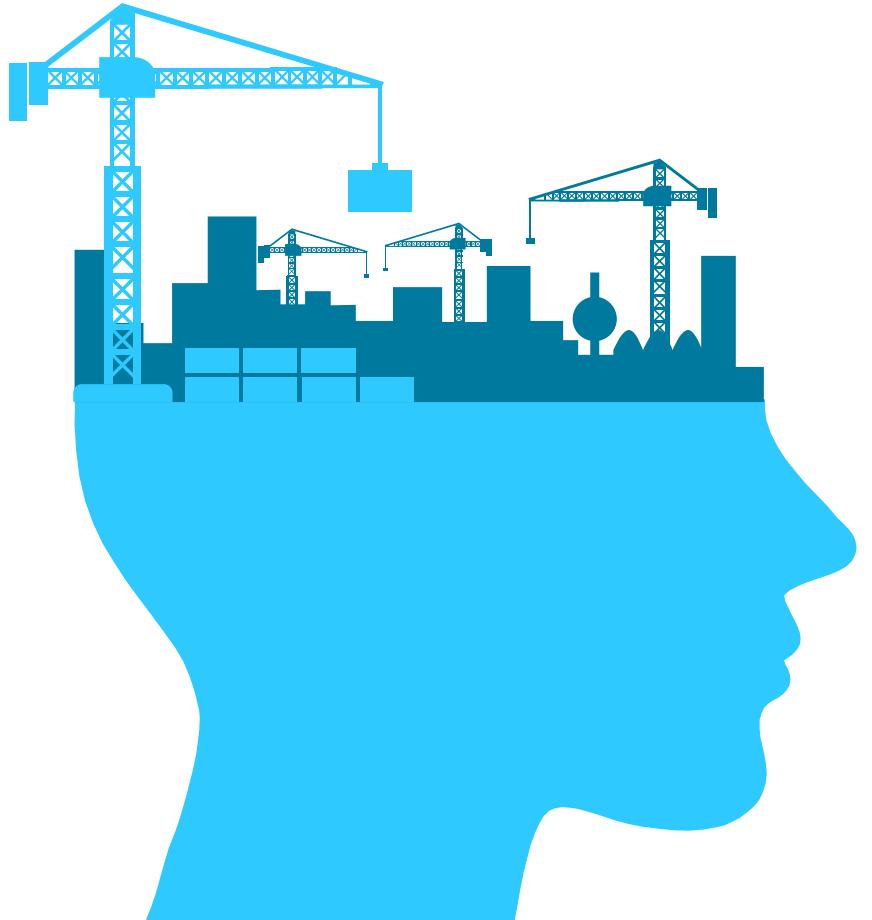

About us

An aerial photograph of a modern urban building complex. The buildings feature extensive green roofs covered in various plants and trees. A central courtyard area is also landscaped with greenery. The architecture includes multiple levels and glass-enclosed sections. The overall theme is sustainable and integrated design.

WHO ARE WE?

ZetaBIM comprises a team of construction industry professionals and BIM technology experts

Our core values

Innovation: We drive innovation, exploring new ideas and technologies in the ever-evolving BIM technology.

Excellence: We strive for excellence, maintaining high standards of quality and professionalism in all our endeavors.

Collaboration: We foster collaboration, working together to achieve remarkable results through open communication and shared knowledge.

Customer-Centricity: We are customer-centric, understanding their unique needs and delivering exceptional value to build long-term partnerships.

02

Our services

What do we offer?

BIM Services

The listed services are our main services. Additionally, we are always ready to accommodate projects tailored to your unique requests and preferences. The possibilities are endless with us!

BIM MODELLING

BIM COORDINATION

SHOP DRAWING

QUANTITY TAKEOFF

AUTOMATION

We possess the expertise to handle building structures and architectures of all types, conquering challenges with ease, regardless of their size or complexity.

Concrete Building

Steel Building

Wood Building

Glass Building

Composite building

We possess the ability to handle intricate projects spanning various industries

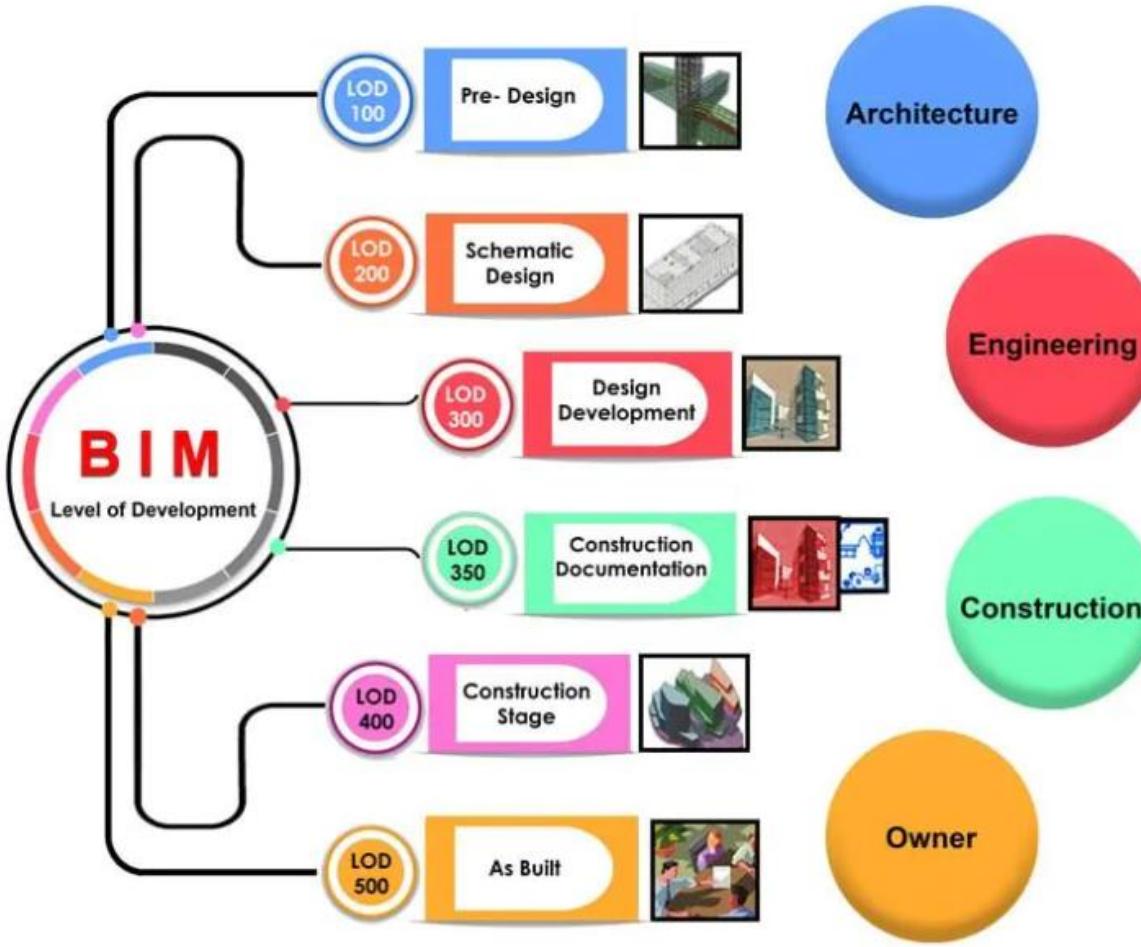

The word cloud is centered around three main words: 'center', 'building', and 'station'. The words are rendered in large, bold blue font. Surrounding these central words are numerous smaller, colored words representing various industries and facilities. The colors used include purple, pink, teal, and light blue. The industry terms include stadium, plant, fire, fitness, gas, office, mall, mosque, government, warehouse, house, hotel, data, museum, bank, hall, arena, cinema, science, university, theater, airport, shopping, convention, hospital, gym, power, school, facility, skyscraper, restaurant, apartment, city, police, church, library, research, train, post, factory, temple, retirement, and city.

center building station

stadium plant fitness gas office mall
mosque government warehouse house hotel data museum
bank hall arena cinema university theater airport shopping
science convention hospital gym power school facility skyscraper restaurant
apartment city police
factory post research train church library
temple retirement

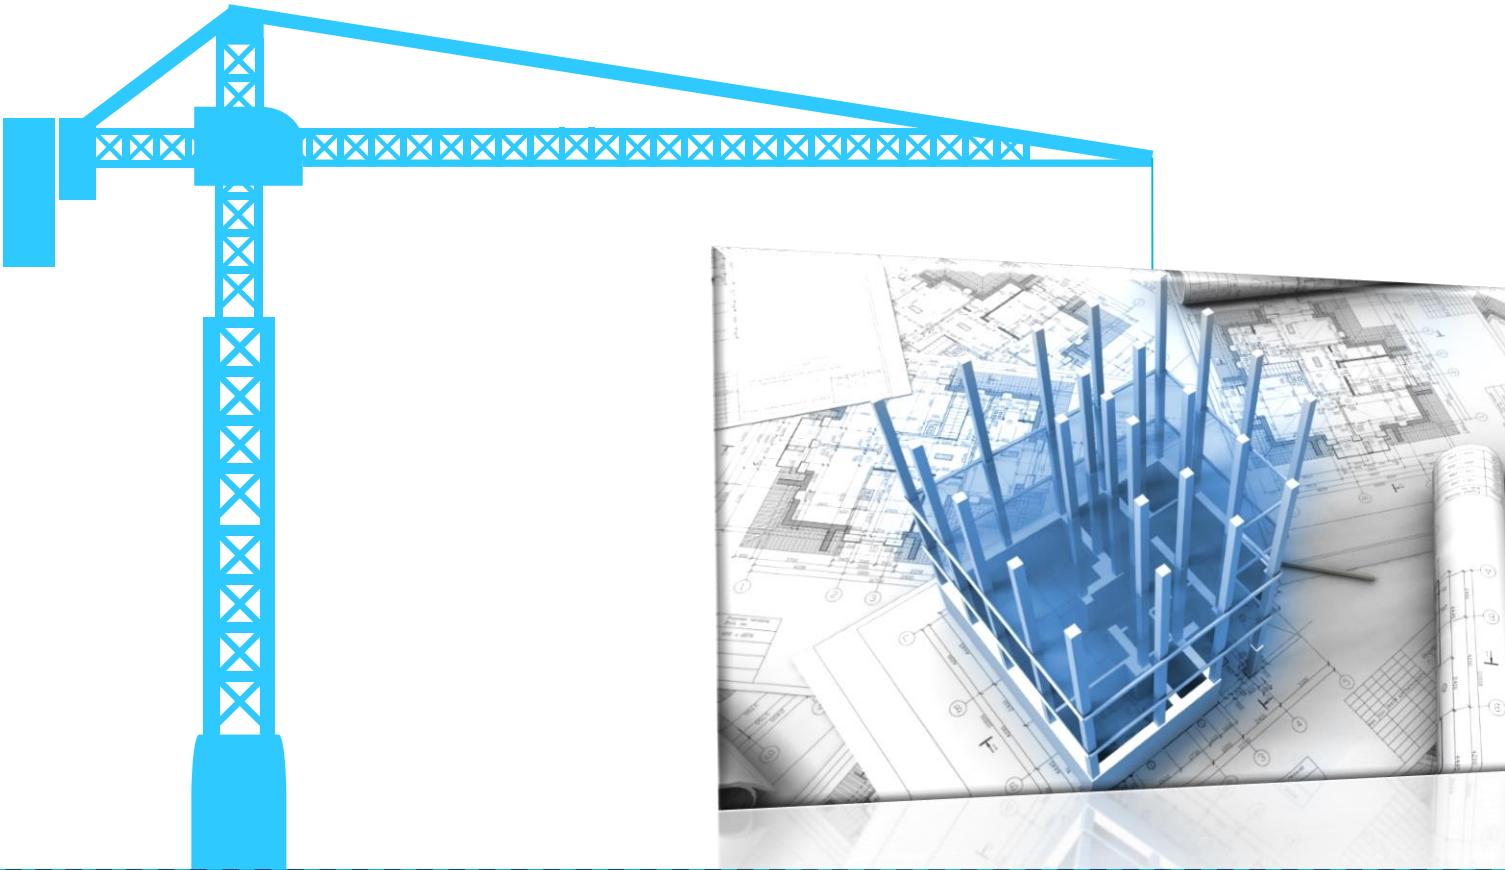

Tailoring our services to your specific needs, we offer flexibility in determining the extent of building information to be integrated into a BIM Model. This includes not only graphical and physical characteristics but also comprehensive data associated with the objects.

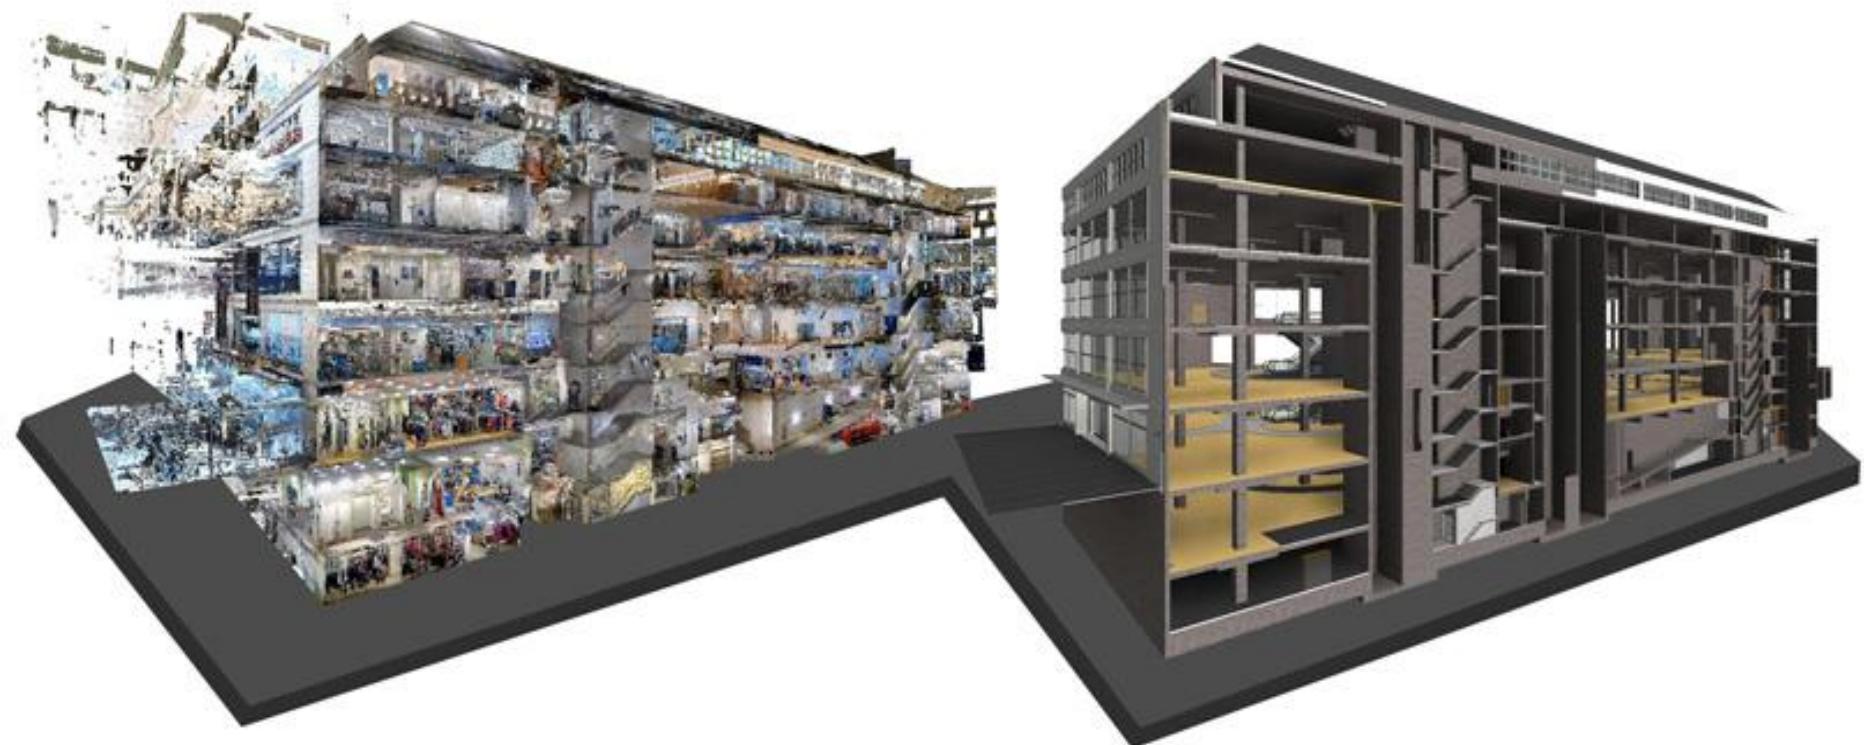

We are here to provide unwavering support and assistance throughout every stage of the project's development.

BIM Modelling

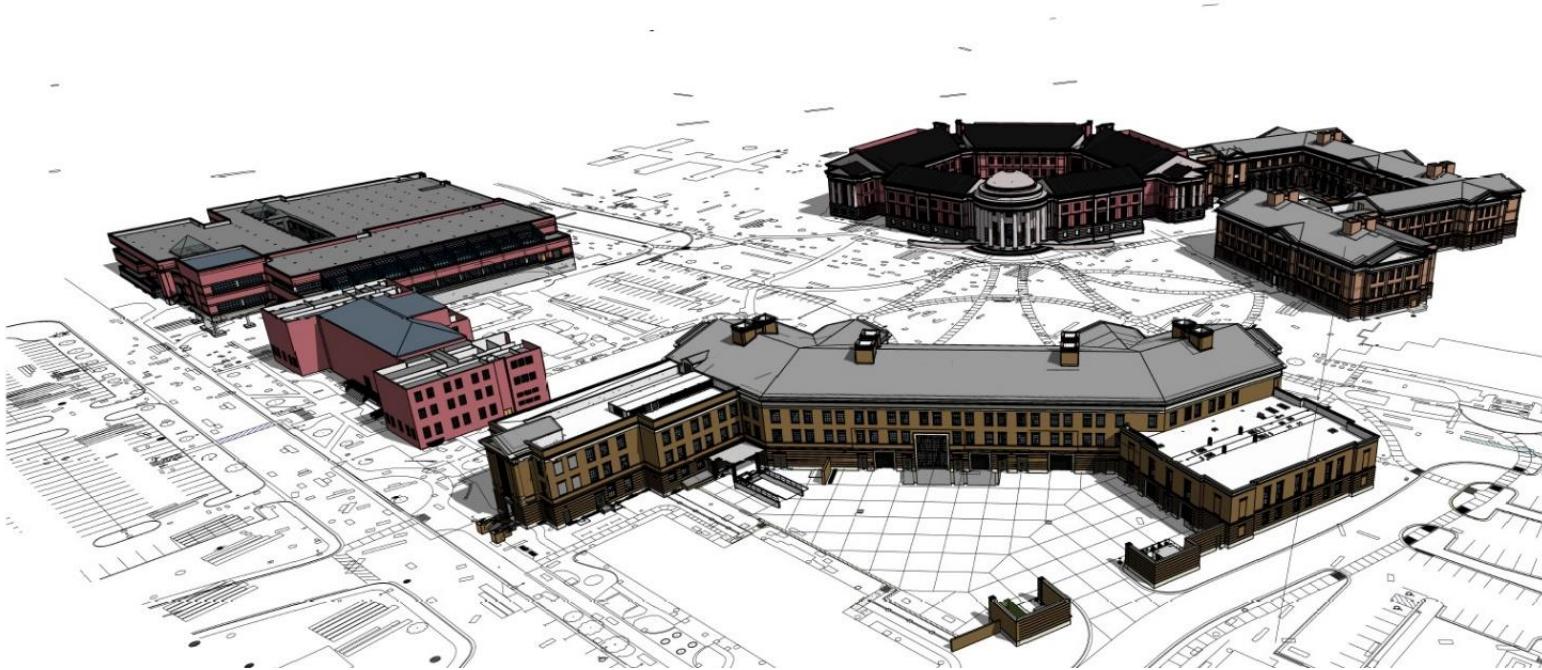

SCAN TO BIM MODELLING

Delivering comprehensive BIM Models, our services encompass Architectural Modeling, Structural Modeling, and MEP Modeling, all derived from PointCloud data.

CAD TO BIM MODELLING

We specialize in delivering all-encompassing BIM Models, covering Architectural Modeling, Structural Modeling, and MEP Modeling, all meticulously derived from CAD.

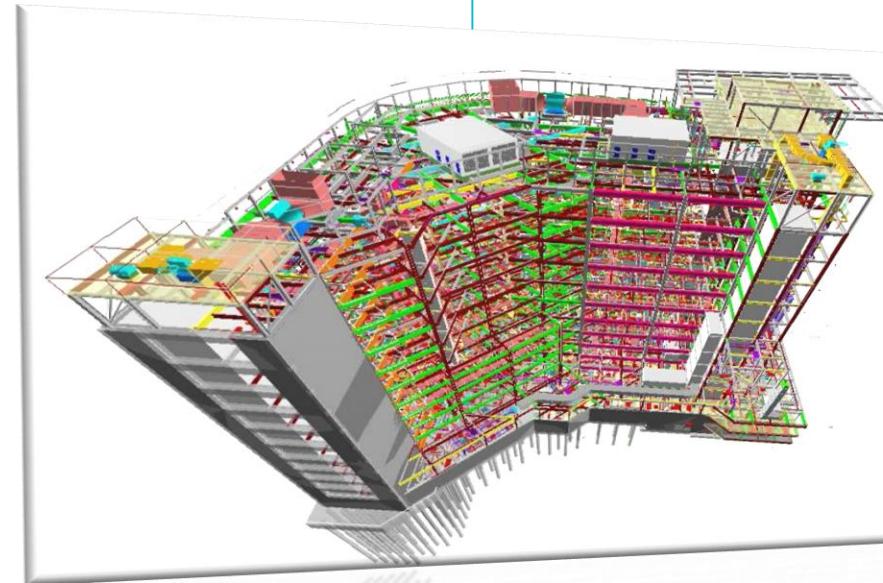

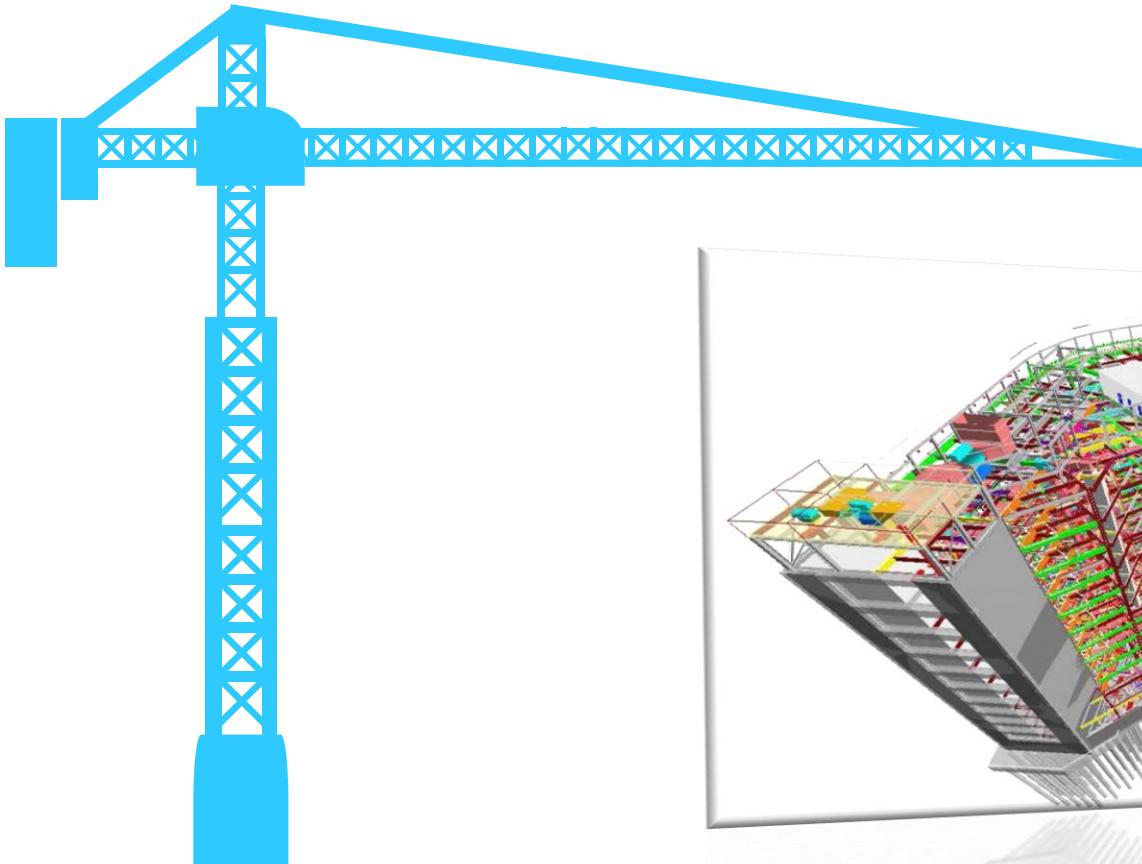

RENDERING & ANIMATION

At **ZetaBIM**, we use cutting-edge rendering and animation technologies to bring your construction projects to life. Our goal is to transform your visions into immersive experiences, allowing you to visualize every detail before construction begins

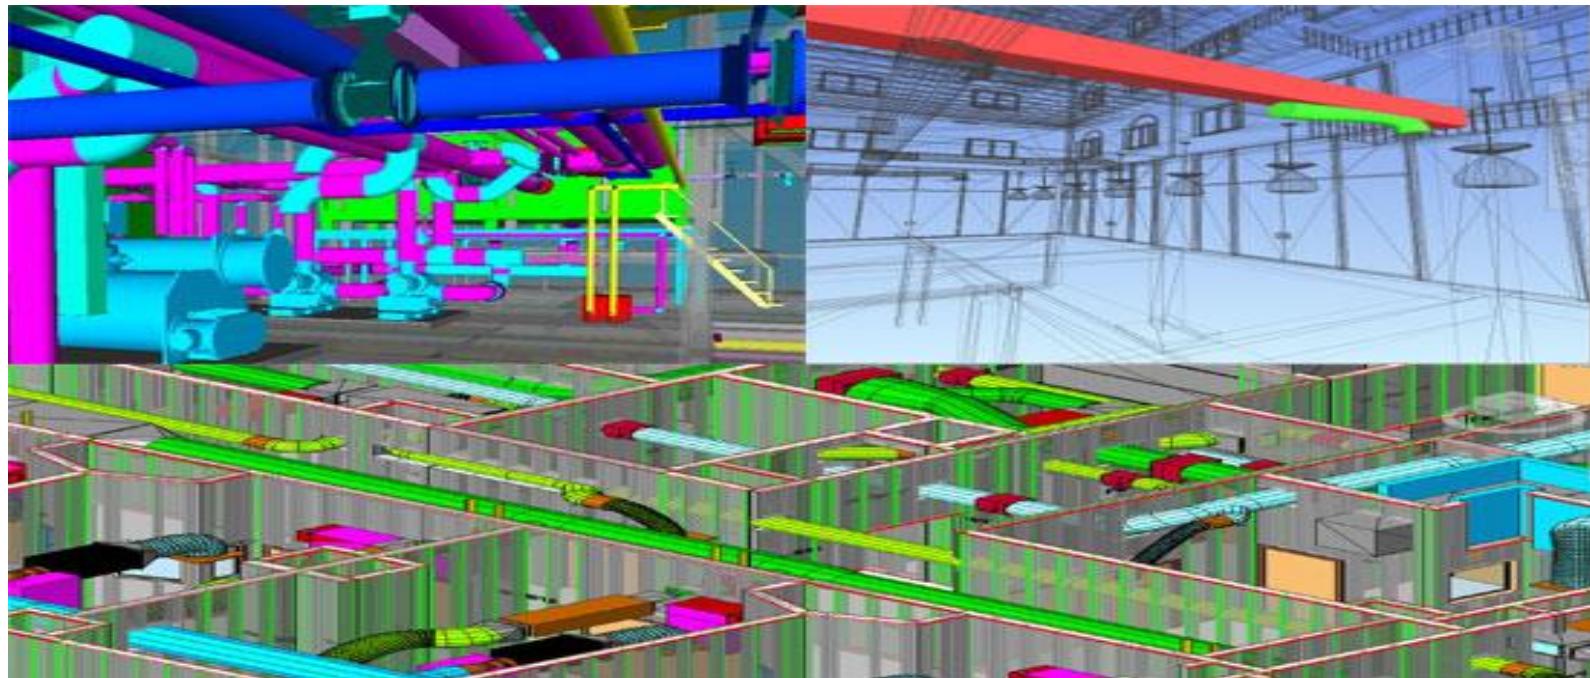

BIM Coordination

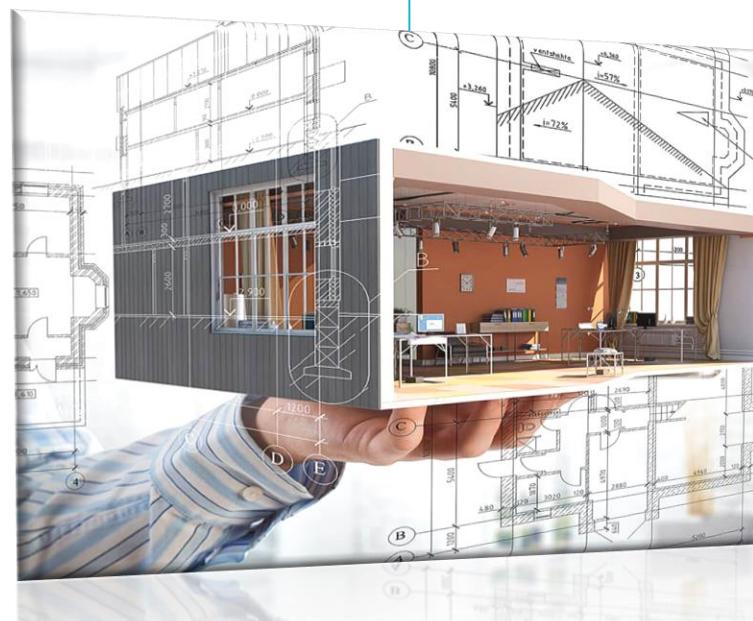

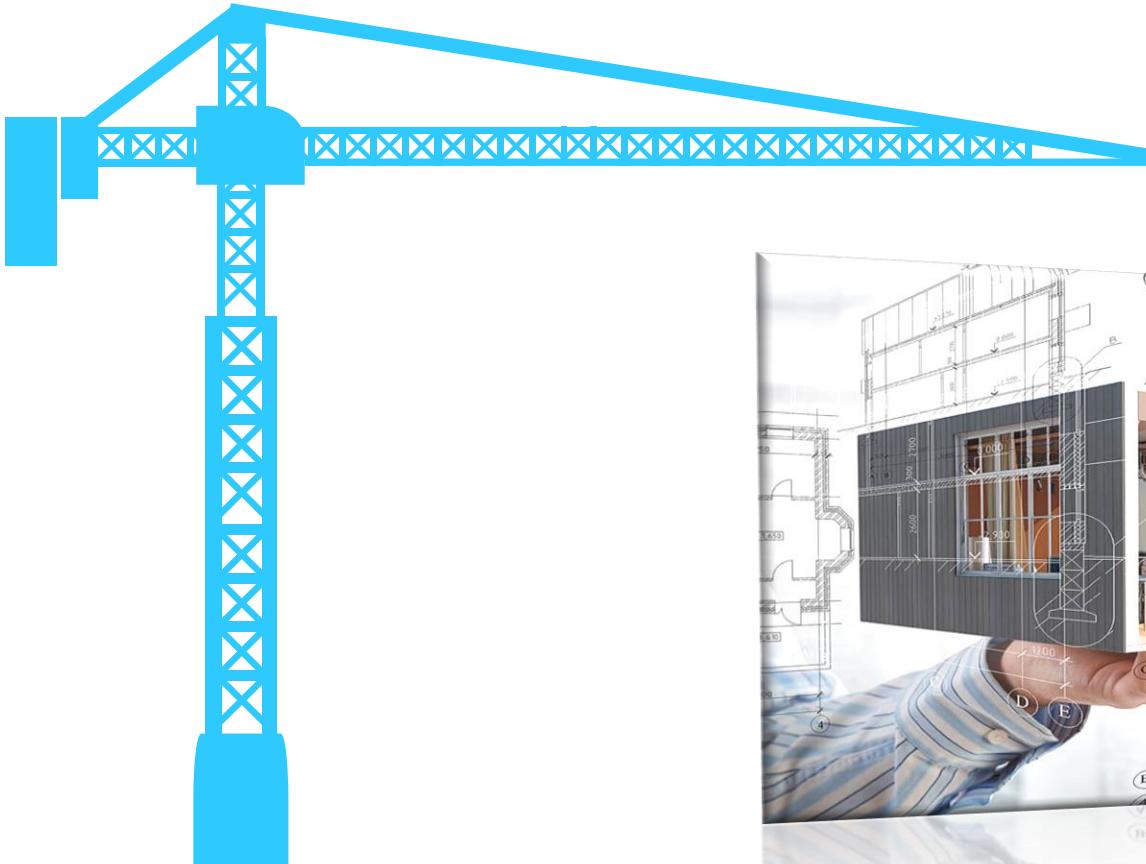

CLASH DETECTION

We excel in consolidating all models from different disciplines into one comprehensive 3D model for seamless coordination. Our expert team can integrate client drawings into the unified model, performing thorough clash detection to resolve or report conflicts for timely adjustments, ensuring a streamlined process.

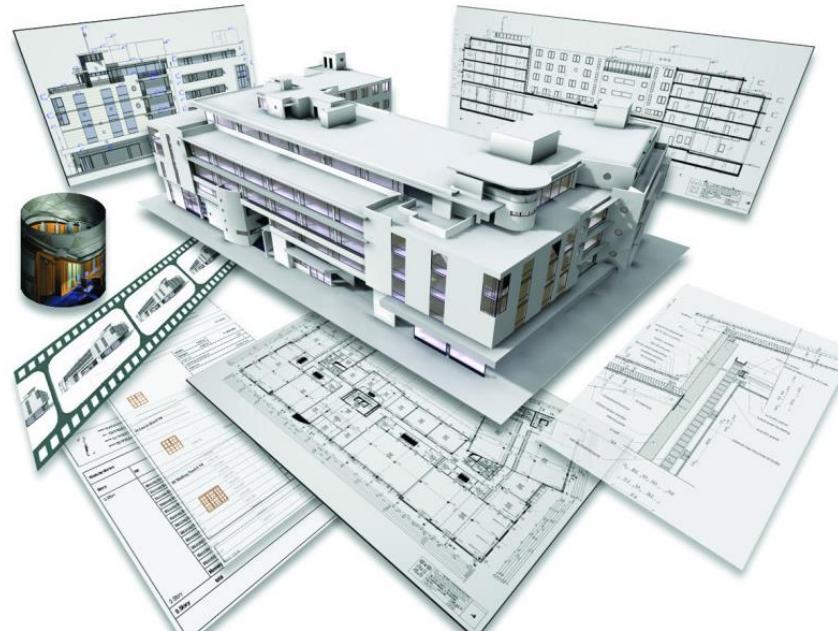

Shop Drawing

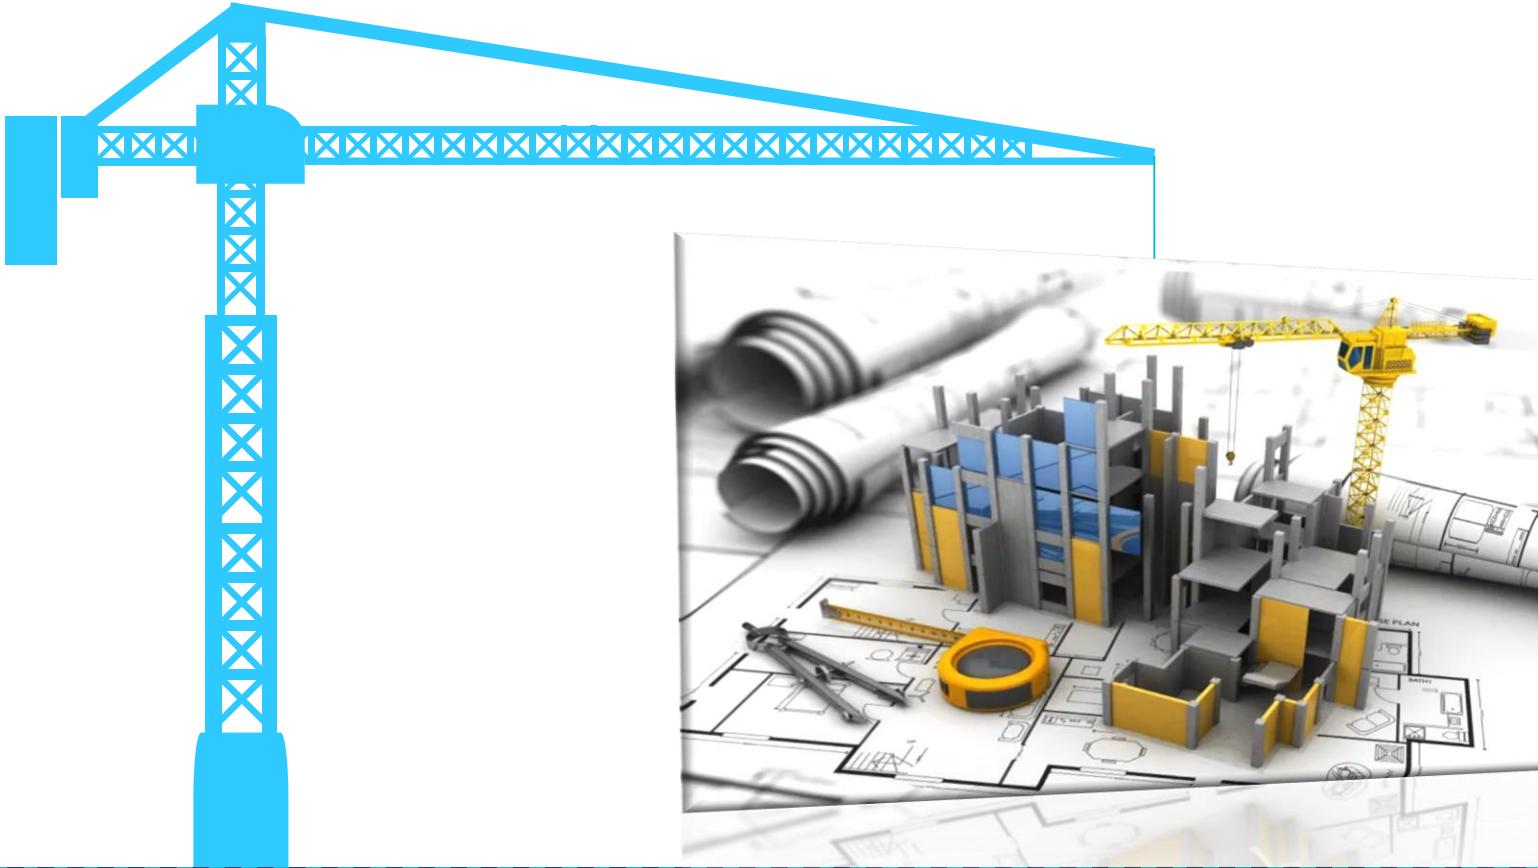

SHOP DRAWING

We specialize in detailed design drawings and shop drawings for construction. Our 2D approach allows clients to seamlessly modify the model object or 2D projected drawing, ensuring consistent changes in both, leading to accurate and synchronized modifications.

Quantity Takeoff

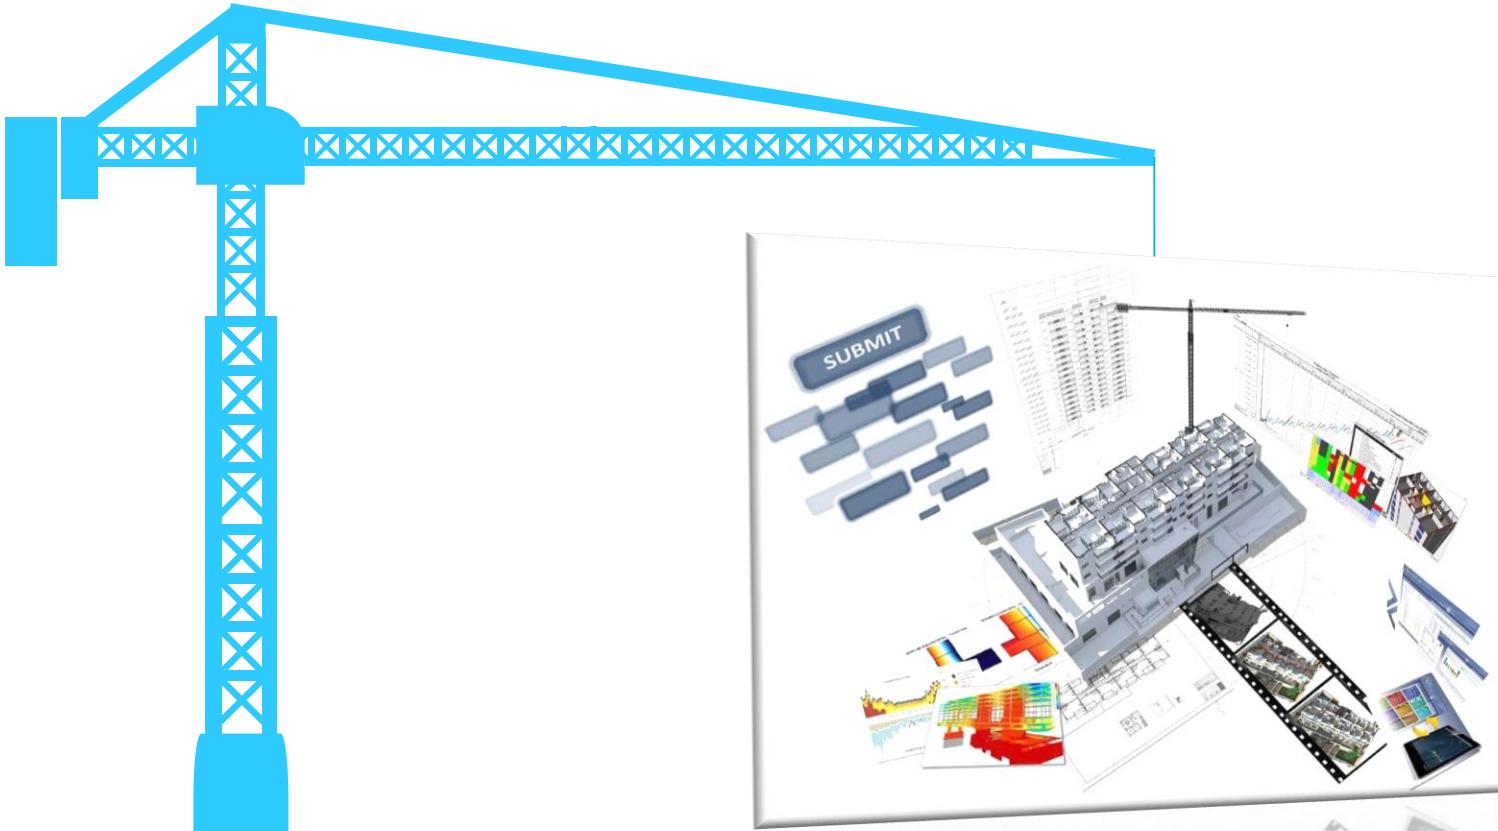

QUANTITY TAKEOFF

Our expertise lies in accurately estimating and quantifying materials, quantities, and costs based on your project specifications. With our meticulous approach, we provide detailed and reliable quantity take-offs to assist in budgeting, procurement, and project planning.

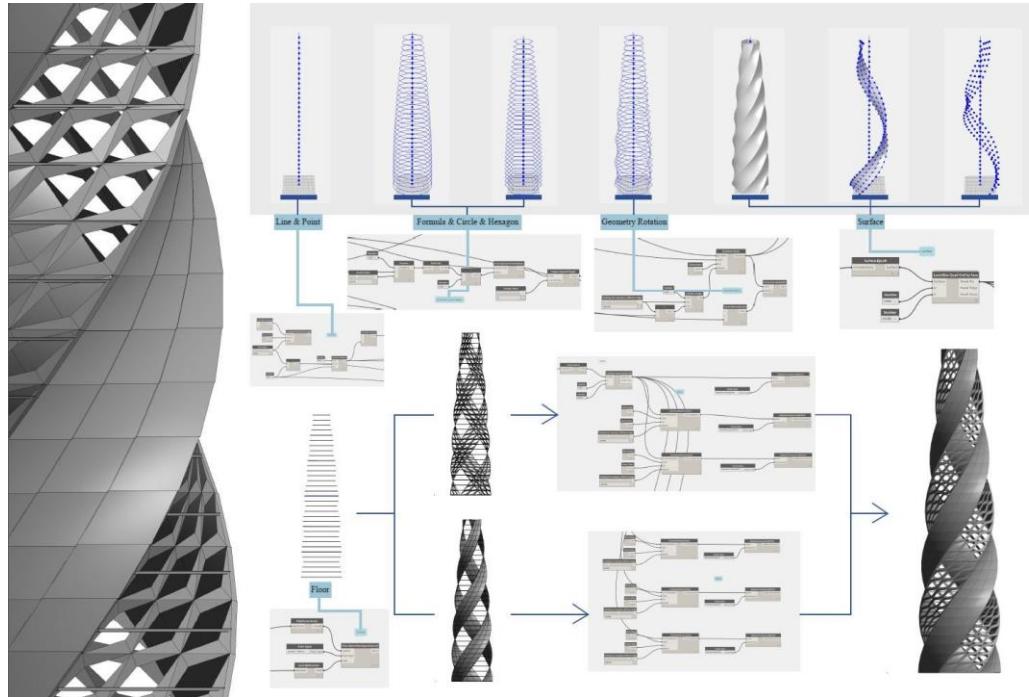

Automation

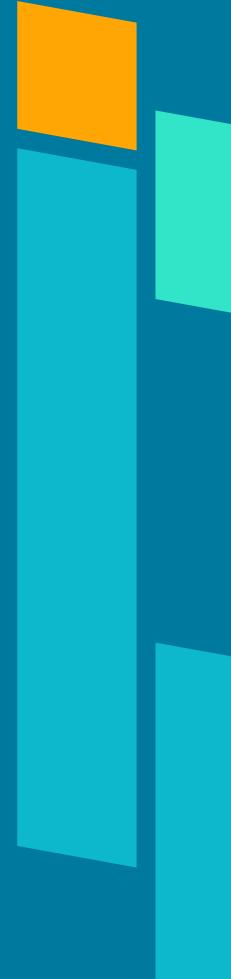

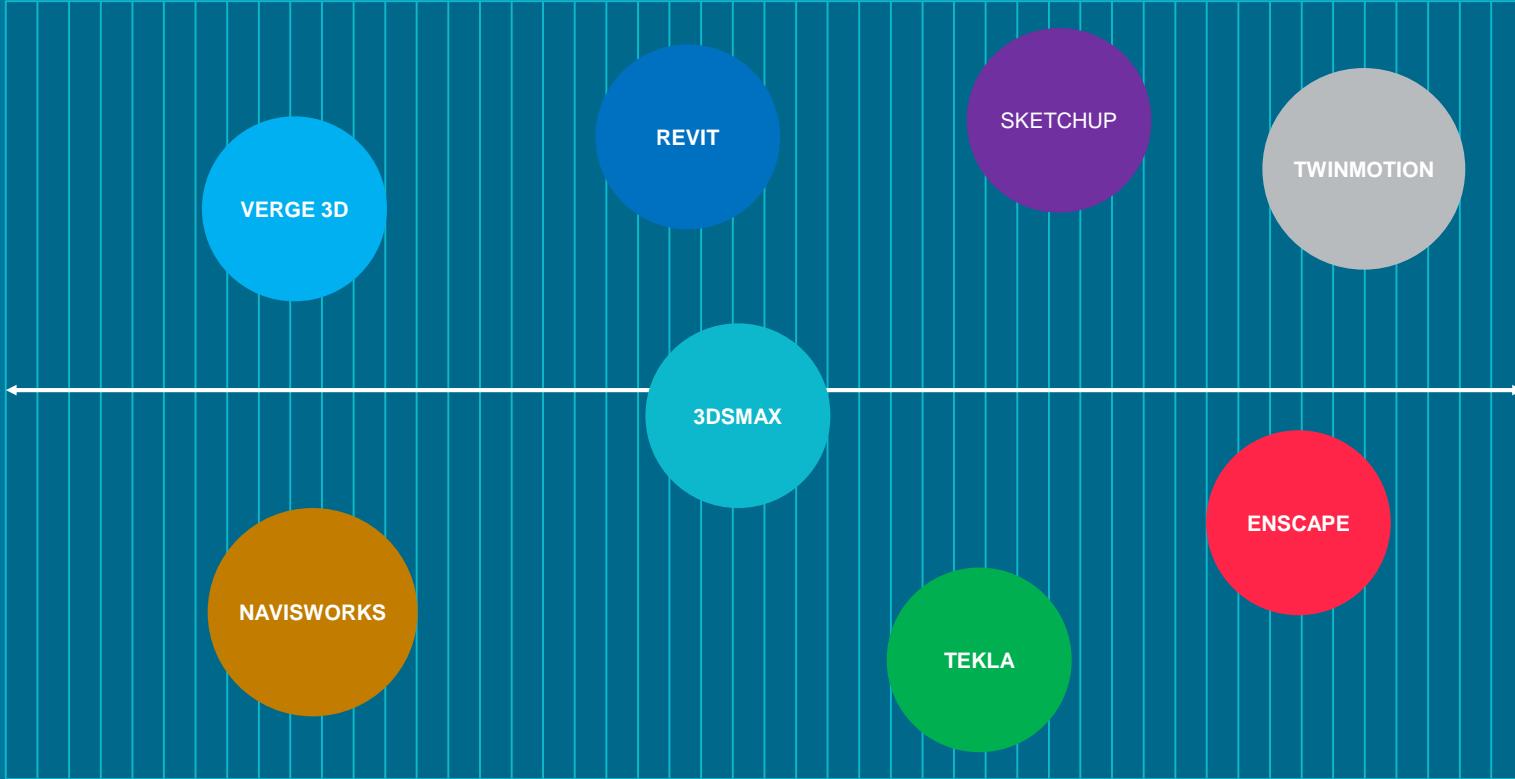

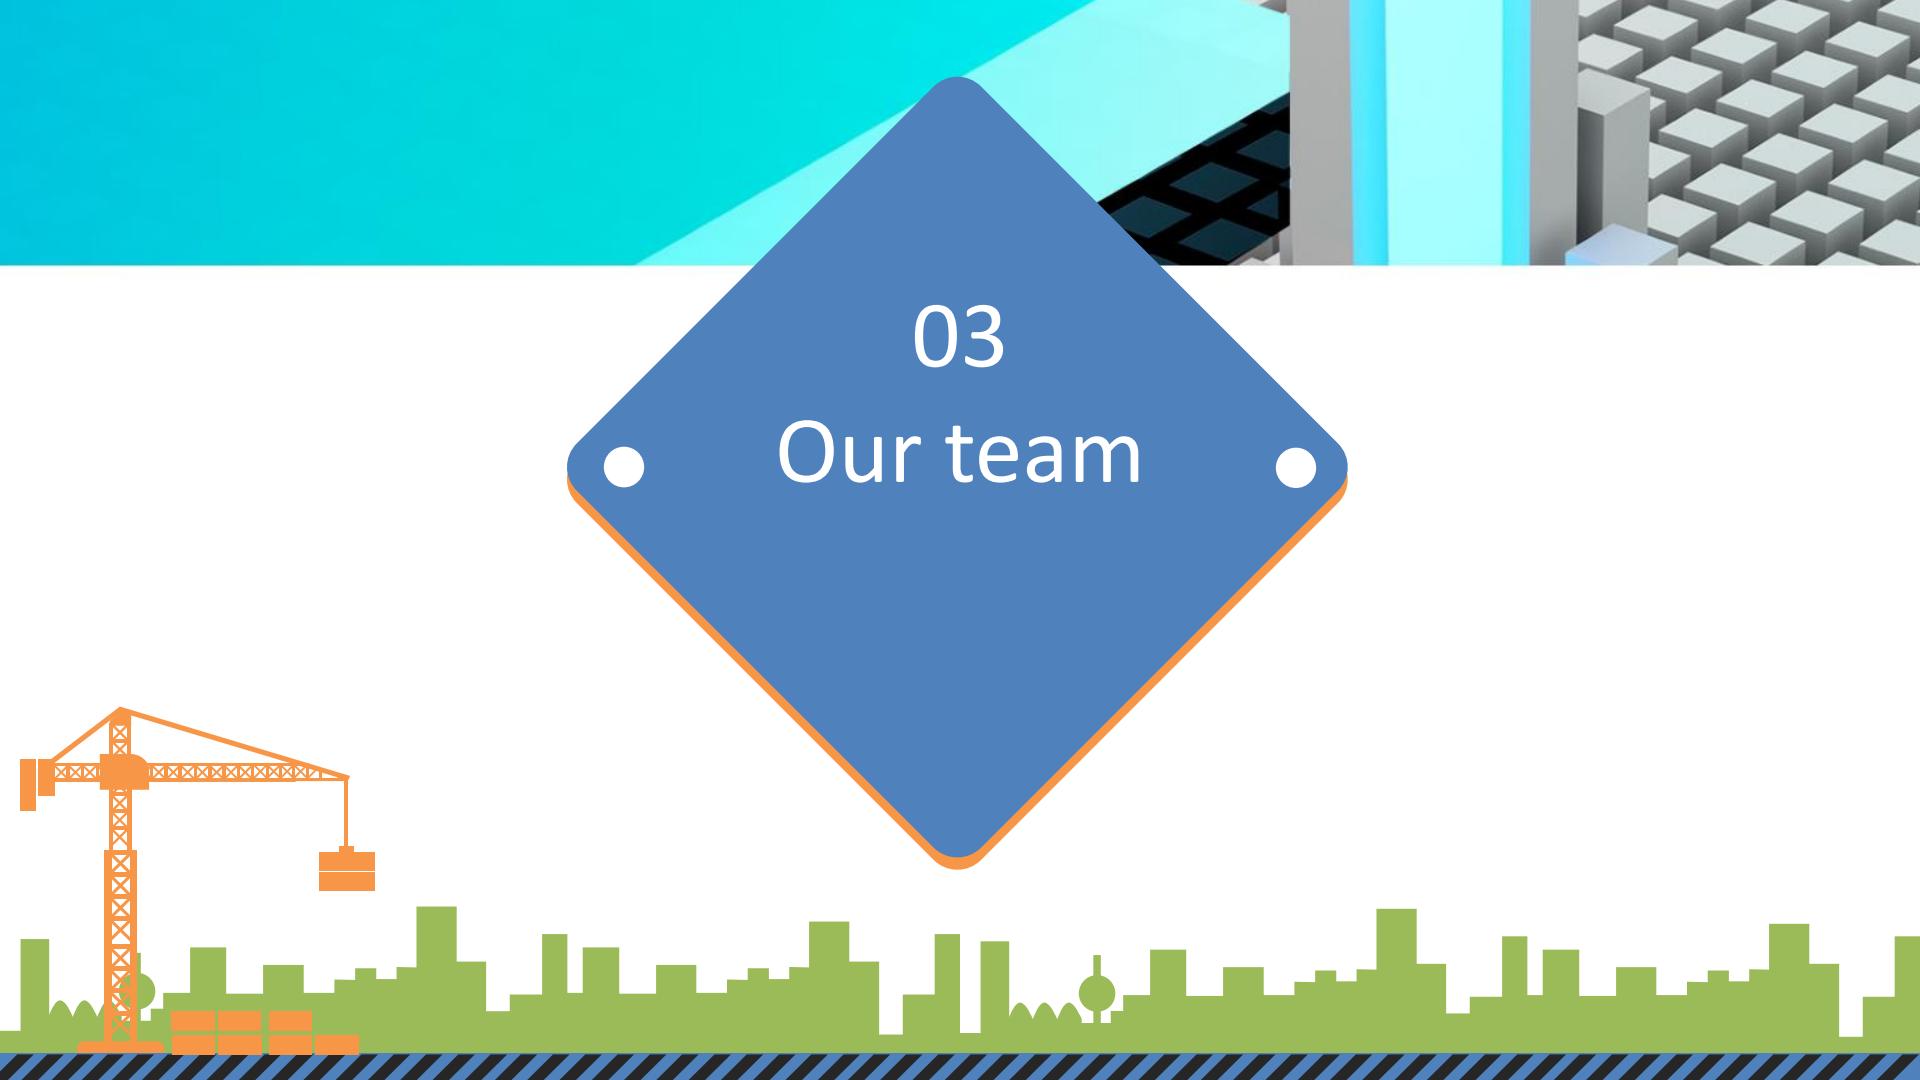

AUTOMATION

Experience streamlined and optimized BIM workflows with our expertise in advanced tools like Dynamo and Revit plugins. Our solutions empower efficient project coordination, enhance productivity, and ensure accurate data management.

SOFTWARES

A background collage featuring a large blue diamond shape in the center. Inside the diamond, the text "03 Our team" is displayed in white. The background includes a teal gradient at the top left, a black and white geometric pattern, a light blue vertical bar, and a grey 3D cube grid on the right. At the bottom, there's a stylized illustration of a construction site with a yellow crane, green blocks, and orange shipping containers.

Our Shared Values

“

Great things are never done by one person. They're done by a team of people.

-- Steve Jobs

”

A background collage featuring a large blue diamond shape at the top right, a 3D perspective of grey cubes, a teal vertical bar, and a black and white checkered pattern. At the bottom, there's a silhouette of a construction crane on the left and a series of green rectangular bars of varying heights on the right.
